

Services

- ◆ **O. Reg. 588/17 Compliance**
- ◆ **Asset Management Strategy**
- ◆ **Asset Acquisition & Handover**

O. Reg. 588/17 Compliance

Meet your obligations to remain eligible for infrastructure grants and gain the internal benefits of improved AM planning through our AM-as-a-service offering.

Asset Management Strategy

With your Asset Management (AM) policy established, the next step is to focus on effective implementation. Our approach ensures that the policy is seamlessly integrated and clearly communicated throughout every stage of the process.

Asset Acquisition & Handover

We offer solutions to establish a consistent acquisition process that maximizes asset value and enhances management.

- ◆ **EAM/CMMS Adoption**

- ◆ **Asset Data Register**

- ◆ **Levels of Service**

EAM/CMMS Adoption

Our services can help you create an ecosystem within your organization that leverages new technologies and supports the long-term success of your asset management program.

Asset Data Register

We can help you develop an asset register that supports your asset management activities and serves as a consistent "source of truth" for your team.

Levels of Service

Enhances focus, accountability, and customer satisfaction by aligning capital investment, operating and resource allocation with constituent needs and priorities.

Our Team

Sebastiaan Lampo

Founded Blocktivity with a passion for client outcomes. Sebastiaan contributes to the ISO Asset Management standards development.

Sherif Kinawy

Sherif holds a PhD in infrastructure and construction management and an MSc focused on climate change impact assessment.
